

Letter of Reference

E.ON Grid Solutions GmbH
People & Organization
Normannenweg 9
20537 Hamburg

Mr Volkan Barut,
born on 25 September 2000 in Gelsenkirchen/Germany,

was employed in our company from 1 January 2023 to 31 October 2024 in the Software Development department (PM-S) as a working student - Software Development.

E.ON Grid Solutions is a central provider of both products and services for E.ON's energy networks and the external market. The company develops and manages systems and digital solutions for all service processes in the electricity and gas business. E.ON Grid Solutions is also responsible for the rollout of smart metering systems for the E.ON Group.

The following tasks were delegated to Mr Barut:

- Extend the GM (Metering Device Management System) program using Java
- Test Java code
- Document own and existing code
- Complete tasks systematically using a ticketing system
- Communicate daily with the team to complete tasks quickly
- Develop a honeypot system for cybersecurity training using JavaScript, HTML, and CSS
- Deliver cybersecurity presentations, sometimes in English
- Contribute innovative ideas in meetings to improve projects
- Create a Windows PowerShell script to support project work

Mr Barut impressed us with his wide-ranging good specialist knowledge, which he was always able to apply confidently and in a target-oriented manner in practice. We would like to mention the following skills and competences separately:

- Java
- JavaScript
- HTML
